Q1) Which of the following is the safest way to create a password?

 [Copy chart](#)

1 response

- Using your birthdate
- Using "123456"
- Mixing letters, numbers, and symbols
- Using your name

Q2) Have you ever checked if a website is secure before entering your personal details? Why or why not?

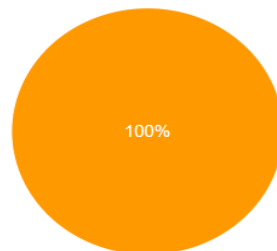

1 response

Yes, I usually check if the website has "https" and a lock symbol before entering my details because it helps ensure that the site is safe and my information is protected.

Q3) If you receive a message from an unknown number asking for your OTP, what would you most likely do?

 [Copy chart](#)

1 response

- Share the OTP
- Ignore the message
- Report or block the sender
- Ask a friend

Q4) Which app or website do you use the most for studying or learning something new online?

1 response

I mostly use YouTube and Google to learn new topics because they provide easy explanations and a variety of resources.

Q5) Why do you think being "digitally aware" is important for students today?

1 response

Being digitally aware is important because it helps students stay safe online, avoid scams, and use the internet in a smart and responsible way for learning and communication.
